

Vulcascot Wheel Chocks

Product Information

PROFILE: Vulcascot Wheel Chocks

Wheel chocks suitable for all applications within the aviation and road transport industries.

These hard wearing wheel chocks are produced from a tough grade of rubber compound to ensure that they are able to withstand the harsh conditions of these demanding industries.

The triangular chocks are rounded at the corners to prevent profile damage and are heavily ribbed on all three sides to aid grip and are supplied with a length of nylon rope to enable easy handling.

Available in 3 sizes and 5 colours -

Small (125mm x 150mm)

Standard (150mm x 170mm)

Large (220mm x 235mm)

Supplied in 250mm lengths as standard.

(All dimensions are nominal and subject to manufacturing tolerances)

NEW!! Laser engraving of your logo to one side.

Additional Configuration options available including – Length, HiVis tape on all 3 sides and eyebolt (250mm only)
